Dear Customer,

Ref: **NOTICE TO ALL LOCAL IMPORTER OF GLASS AND ALUMINIUM FRAMES FOR ARCHITECTURAL USE IN THE SEYCHELLES**

Please be informed that the Seychelles Bureau of Standards (SBS) has adopted four International Standards regarding the quality of glass and/or aluminium frames for use in the local construction industry.

In order to effectively control the quality of imported glass, glass windows and glass doors, **SBS is advising importers to procure from their overseas supplier a Certificate of conformity.**

The **certificate of conformity** shall confirm the following information about the consignment:

- **the type of glass for the doors and/or windows and the standard specification number to which the glass complies with;**
- **the thickness of the glass for the doors and/or windows;**
- **the designated treated alloy number of the Aluminium frame or the standard specification number to which it complies (if the glass has aluminium frame).**
- **The Standard specification number or Regulation used for the glazing of the finished product.**

Thanking you for your understanding.
